

# EFT MIGRATION SERVICES

## WHY USE PROFESSIONAL SERVICES?

Globalscape's Professional Services team has extensive experience with EFT implementations and migrations across a variety of industries and geographies. Using their expertise, tools, and resources, Professional Services collaborates with you to create and implement a migration plan that helps ensure business continuity and successful project completion.

## ABOUT GLOBALSCAPE

Globalscape is a pioneer in securing and automating the movement and integration of data seamlessly in, around and outside your business, between applications, people and places, in and out of the cloud. Founded in 1996, Globalscape's data exchange and integration software and services are trusted by over 13,000 customers in over 150 countries worldwide, including global enterprises, governments, and small and medium enterprises. Headquartered in San Antonio, TX, Globalscape enables companies to increase business agility by unleashing the power of data. Whether you are a line-of-business stakeholder struggling to connect multiple cloud applications or an IT professional tasked with integrating partner data into homegrown or legacy systems, Globalscape provides cloud services that automate your work, secure your data and integrate your applications – while giving visibility to those who need it. Globalscape makes business flow brilliantly. Globalscape has consistently been named a top workplace by Computerworld, the San Antonio Business Journal, Texas Monthly, and the San Antonio Express-News, among others.

## MINIMIZE RISK AND MIGRATE YOUR EFT SUCCESSFULLY

Migrating any server can be a complex project, with several tasks to coordinate and many dependencies to consider. If not executed properly, you put your business at risk for costly downtime and lengthy project timelines. It's important to use a migration team that has the knowledge and resources necessary to perform a smooth transition.

The Professional Services team at Globalscape has the expertise needed to guide you through an EFT migration or upgrade process. Using their thorough understanding of the EFT product, combined with automated tools and best practices, our team can help you minimize risk and execute a successful migration.

## A PROVEN MIGRATION PROCESS

EFT Migration Services use highly trained Globalscape consultants who work with you to create the best strategy for your migration. These certified professionals will assist you in analyzing your business and project objectives and developing a project plan that takes into account possible roadblocks and system constraints. Once the migration has been completed, our experts perform thorough testing and validation to help ensure your EFT configuration has been moved successfully.

Globalscape offers 4 migration-related services:

- 
**EFT standalone or HA Migration:** Designed to work with your staff when migrating an existing EFT standalone or HA configuration into another existing EFT system, whether this is hosted on-premises or in the cloud.
- 
**EFT Arcus Migration:** Designed to work with your staff on migrating an existing EFT standalone or HA configurations into our SaaS managed file transfer platform, EFT Arcus.
- 
**EFT In-Place Upgrade:** Designed to provide an EFT in-place version upgrade on existing EFT.
- 
**EFT Cut-over:** Designed to assist customers during a cut-over event or maintenance window when switching from an old environment into a new EFT environment.

**Ask your account manager about EFT Migration Services and let us help you execute a smooth, successful migration project.**
