EFT MIGRATION SERVICES

MINIMIZE RISK AND MIGRATE YOUR EFT SUCCESSFULLY

Migrating any server can be a complex project, with several tasks to coordinate and many dependencies to consider. If not executed properly, you put your business at risk for costly downtime and lengthy project timelines. It’s important to use a migration team that has the knowledge and resources necessary to perform a smooth transition.

The Professional Services team at Globalscape has the expertise needed to guide you through an EFT migration or upgrade process. Using their thorough understanding of the EFT product, combined with automated tools and best practices, our team can help you minimize risk and execute a successful migration.

PROVEN MIGRATION PROCESS

EFT Migration Services use highly trained Globalscape consultants who work with you to create the best strategy for your migration. These certified professionals will assist you in analyzing your business and project objectives and developing a project plan that takes into account possible roadblocks and system constraints. Once the migration has been completed, our experts perform thorough testing and validation to help ensure your EFT configuration has been moved successfully.

Globalscape offers 4 migration-related services:

- **EFT standalone or HA Migration**: Designed to work with your staff when migrating an existing EFT standalone or HA configuration into another existing EFT system, whether this is hosted on-premises or in the cloud.

- **EFT Arcus Migration**: Designed to work with your staff in migrating an existing EFT standalone or HA configurations into our SaaS managed file transfer platform, EFT Arcus.

- **EFT In-Place Upgrade**: Designed to provide an EFT in-place version upgrade on existing EFT.

- **EFT Cut-over**: Designed to assist customers during a cut-over event or maintenance window when switching from an old environment into a new EFT environment.

Ask your account manager about EFT Migration Services and let us help you execute a smooth, successful migration project.
