

# Enhanced File Transfer™ (EFT™) SMB

## SCALABLE, AFFORDABLE SECURITY, CUSTOMIZED FOR YOUR BUSINESS

Globalscape's Enhanced File Transfer™ (EFT™) SMB, designed for small-to-medium businesses, enables your organization to securely manage file transfers among worldwide offices, clients, and partners, ensuring that data confidentiality and integrity are preserved during transport and storage.

EFT handles routine file transfer tasks, so you can turn your attention to tomorrow's business needs today.

The EFT SMB modular platform makes it affordable by allowing you to purchase just the functionality you need. You can add advanced features as your business grows or your needs change. EFT SMB has capabilities perfect for small businesses that need secure file transfer software, without advanced automation features.

Additional modules provide SFTP and HTTPS transfers, web-based transfer client, mobile transfer client, and automation events such as folder monitor, scheduled transfers, and copy/move/download actions.

### KEY BENEFITS

- Get an SFTP server up and running in hours instead of days
- On premises, in the cloud, and hybrid options available
- Easy administration and end-user interfaces
- Active Directory, ODBC, NTLM, or built-in user authentication
- End-user access via browser
- Flexible, modular platform allows you to choose only the features you need, when you need them
- Run scripts and send emails based on event triggers

EFT SMB is available in three different “tiers” or bundles. You can add additional modules to any tier.

Product/Feature	Tier 1	Tier 2	Tier 3
FTP, FTPS transfers	✓	✓	✓
SFTP transfers (SFTP module)	✓	✓	✓
SSL/TLS and certificate management	✓	✓	✓
Authentication via AD, ODBC, or NTLM	✓	✓	✓
<b>Secure remote administration of settings and users</b>	✓	✓	✓
Security policies, resource and access controls (disk quota, MAC connections)	✓	✓	✓
IP access rules, banned file types, DoS detection	✓	✓	✓
Administration interface and command line administration	✓	✓	✓
IPv6 and, unicode, and internationalized domain name (IDN) support	✓	✓	✓
Trigger events using web services calls	✓	✓	✓
Monitor inbound transfers in real time	✓	✓	✓
Execute a process or send an email based on a triggered event	✓	✓	✓
Run on virtual machines (VMware, Hyper-V, XenServer)	✓	✓	✓
Audit to SQL database (Auditing and Reporting module)	ADD	✓	✓
HTTP/HTTPS protocol (HTTP/S module)	ADD	✓	✓
Mobile client (licensed per user) (Mobile Transfer Client)	ADD	99 or fewer	100 - 249
Password security controls (complexity, expiration, reuse, reset, reminders) (High Security module)	ADD	✓	✓
Advanced security, data sanitization (High Security Module)	ADD	✓	✓
Facilitates compliance with PCI DSS, HIPAA, SOX (High Security module)	ADD	✓	✓
Web-based client (Client Access License) (Web Transfer Client)	ADD	500	500
