

ENHANCED FILE TRANSFER™ (EFT™) SMB

KEY RESULTS

-  **Get an SFTP server** up and running in hours instead of days
-  **On premises, in the cloud, and hybrid** options available
-  **Easy** administration and end-user interfaces
-  **Active Directory**, ODBC, NTLM, or built-in user authentication
-  **End-user** access via browser
-  **Flexible, modular platform** allows you to choose only the features you need, when you need them
-  **Run scripts** and send emails based on event triggers

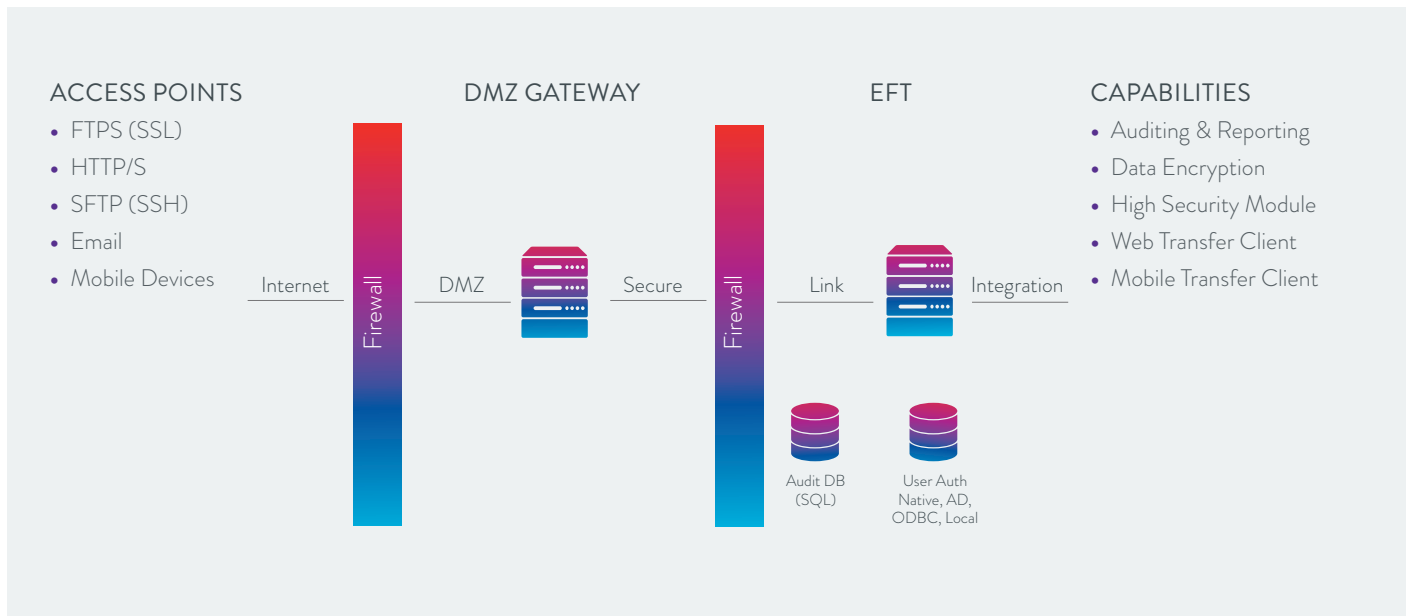

SCALABLE, AFFORDABLE SECURITY, CUSTOMIZED FOR YOUR BUSINESS.

Globalscape's Enhanced File Transfer™ (EFT™) SMB, designed for small-to-medium businesses, enables your organization to securely manage file transfers among worldwide offices, clients, and partners, ensuring that data confidentiality and integrity are preserved during transport and storage. EFT handles routine file transfer tasks, so you can turn your attention to tomorrow's business needs today.

The EFT SMB modular platform makes it affordable by allowing you to purchase just the functionality you need. You can add advanced features as your business grows or your needs change. EFT SMB has capabilities perfect for small businesses that need secure file transfer software, without advanced automation features.

Additional modules provide SFTP and HTTPS transfers, web-based transfer client, mobile transfer client, and automation events such as folder monitor, scheduled transfers, and copy/move/download actions.

ABOUT GLOBALSCAPE

Globalscape is a pioneer in securing and automating the movement and integration of data seamlessly in, around and outside your business, between applications, people and places, in and out of the cloud. Founded in 1996, Globalscape's data exchange and integration software and services are trusted by over 13,000 customers in over 150 countries worldwide, including global enterprises, governments, and small and medium enterprises. Headquartered in San Antonio, TX, Globalscape enables companies to increase business agility by unleashing the power of data. Whether you are a line-of-business stakeholder struggling to connect multiple cloud applications or an IT professional tasked with integrating partner data into homegrown or legacy systems, Globalscape provides cloud services that automate your work, secure your data and integrate your applications – while giving visibility to those who need it. Globalscape makes business flow brilliantly. Globalscape has consistently been named a top workplace by Computerworld, the San Antonio Business Journal, Texas Monthly, and the San Antonio Express-News, among others.

EFT SMB is available in three different “tiers” or bundles. You can add additional modules to any tier. To compare tiers, refer to the Comparison Chart at <https://www.globalscape.com/managed-file-transfer/comparison>.
