

EFT™ ARCUS

THE CLOUD MFT SERVICE THAT GROWS WITH YOU

KEY RESULTS

 **Reduce IT operational costs** usually associated with on-site hardware and software maintenance

 **Pay only for what you use** with our affordable consumption-based pricing model sized for any environment

 **Achieve compliance** with the most stringent data security and compliance requirements including ISO 9001, ISO 27001, ISO 27017, ISO 27018, PCI DSS, SOC 1, SOC 2, SOC 3, SOX, EU-US Privacy Shield, CSA Star, HIPAA, FedRAMP, and FIPS 140-2

 **Secure person-to-person file sharing** with an intuitive user-interface invites compliance with IT policies and procedures

 **Data-anywhere flexibility and agility** with multiple access point support including FTP, FTPS, HTTP, HTTPS, SFTP, AS2, email, web, and mobile

 **Streamline business processes** with advanced automation capabilities that conserve high-demand, high-value resources

 **Multi-region support** for deployments into many regions of the Azure cloud

EFT™ WITH THE POWER OF THE CLOUD

EFT™ Arcus is a cloud-based Managed File Transfer (MFT) service that provides the compliance and efficiency of MFT without the responsibility or complexity of an on-premises solution.

With EFT Arcus you can have the core features of MFT, including secure access protocols, data visibility, governance, and automation with the mobility, accessibility, and flexibility of the cloud.

Increase your operational efficiency and data security with:

- **Flexible pay-as-you-go subscription pricing model** eliminates large up-front Capital Expenditures
- **99.99% uptime** with geographically dispersed data infrastructure and options for High Availability
- **Minimal impact on your MFT Service** with on-the-fly upgrades that don't require your IT resources
- **Automatically scale up or down**, vertically or horizontally, to accommodate changes in server traffic
- **Secure single-tenant deployment**, so you control who accesses your data

FEATURES AT A GLANCE

EFT™ Arcus simplifies your file transfer infrastructure, increases operational efficiency, and protects your data. Features include:

- **FTP Core Server**
- **SSL/TLS & Certificate Management**
- **SFTP**
- **FTPS**
- **SSH Key-based Authentication**
- **Secure Remote Administration**
- **Secure P2P File Sharing**
- **Workflow Automation**
- **Single-Tenant Deployment**
- **Delegated Administration**
- **Mobile Access**
- **High Availability**
